DETAILED ACTION

Election/Restrictions

Newly submitted claims 51-64 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The invention in claims 51-64 use active steps and different reagents that are different from the invention originally examined claims 46-50. The originally claimed invention uses **an assay capable of determining compounds that decrease foreign DNA N-boxes in cells** and Newly submitted claims do not use an assay capable of determining compounds that decrease foreign DNA N-boxes in cells, but uses an assay that determines the copy number of viral polynucleotide in a system. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 51-64 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

This application contains claims 26-45 drawn to an invention nonelected with traverse in Paper No. 3. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Comply to Sequence Rule

Objection of the specification is maintained because of the damaged disk. See CRF Problem Report.

Specification

Objection of the specification is withdrawn because applicant amended the specification.

Claim Rejections - 35 USC § 112

Rejection of claims under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is **moot** because applicant cancelled the claims.

Rejection of claims under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention is **moot** because applicant cancelled the claims.

Rejection of the claims rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention is **moot** because applicant cancelled the claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
